IT'S NOT AN ILLEGAL EVICTION, IT'S A LEGAL RESISTANCE

Archway squatters successfully resist an illegal eviction attempt by infamous Stamford Hill slumlords, corrupt security and incompetent cops.

Activists, squatters and community members successfully resisted an illegal eviction attempt at a 2-year old squat in North London this Wednesday night. A call-out was made on the No Evictions London Squatter's Network after residents of the building took to the roof to protest the 1-hour notice they were given to leave. In the resulting melee, there were 3 de-arrests in 5 minutes, squatters were batoned, and a plant-pot fight broke out between rooftop squatters and the fake-ass security scumbags - with one squatter scoring 3 headshots on the lame guards! **LEARN TO DUCK YA SCHMUCKS!**

We call on all squatters, tenants and activists to resist all eviction attempts - legal or illegal - during the current pandemic. Now more than ever the opportunity to seize back housing and claim buildings is great.

Fuck living on the street, in hostels, in submission, and fuck relying on the State for hand-outs and false charity in this time of social, ecological and economic collapse. Fuck scab bailiffs and working class traitors who sell out their class for a cheap buck when people are starving on the streets and the world burns. Fuck capital and fuck the laws that oppress our movement. The time for solidarity is now.

MILLION MASK MARCH

Chaos, police violence, fire, fight for freedom. As every year, for the 8th year, as reminder of hero without cape, Guy Fawkes ... They stand with those who face the poverty. They stand black community, refugees and all fellow humans from all places around the world. They fight for humanity and environment. They fight against corruption, capitalist greed, and the erosion of civil liberties. We need to unite, and let the government know that we are strong, unhappy and that we demand change. The future is in our hands. Let's stand up and fight for our rights and this planet! Let's rise together!

Don't forget ya mask dickhead!

INTERSQUAT: LONDON SQUATTERS GETTING ORGANISED

The first London Intersquat in several years took place at a secret occupied location last Saturday, 17th October. Formerly a regular event, the meet-up was attended by nearly 50 members of London's autonomous community, representing more than a dozen squatted buildings across the city.

We call on all autonomous groups to organise, occupy and resist as we enter an increasingly oppressive but potentially transformative future. Watch this space for future updates on the proposed workshops and for forthcoming Intersquat events!

GENTRIFICATION IS ORGANIZED CRIME

It is happening here on Whitechapel Road. This is what we have seen in E14 and Shoreditch and more places not just London. Apparently 44% of households in the area are on or below the poverty line and will be pushed out by the brand new tower blocks being built that promise 3500 new homes, none of which will be social housing. The new Crossrail will strip the street of local businesses and push the real residents out.

Gentrification is subtle but arbitrary form of social cleansing that is callous and brutish in the manner it destroys lives and tears apart peoples lives - something which the State claims to protect and support.

Supposedly it is our government that cares about the home the family and the family life and its ways of life but it is that which relinquishes protective controls and supports landlords and landlordism.

We demand that people do not live their lives in insubstantial, inadequate and unsafe conditions on the basis of promoting profit.

Nor should we live in a system whereby those who provide those conditions are protected by the law.

We advocate a society built upon cohesion and communal order. We reject landlordism and the system of property ownership that only benefits a minority.

OLIVE MORRIS

In 1961, Olive Elaine Morris (1952-1979) moved to London from Jamaica to be with her parents, her activism began at 16 having witnessed a Nigerian diplomat being beaten up by evil cop bastards because he had a flashy car and wanted to buy some records on Atlantic Road in Brixton. Olive got involved and so they started beating her up too. Olive went on to spend the rest of her short life leading protests, demonstrations, and helped to found the Brixton Black Women's Group, one of Britain's first networks for black women challenging oppression. Olive also set up the famous 121 Railton Road squat in 1973 which was an activism hub until 1999.

PC Heal

Imagine joining the TSG and being so scared of a scrap, you attack and arrest people for making you feel scared! Apparently he even considered using his taser - all cos someone had a furrowed brow!

ARSEHOLES OF ARCHWAY

Pretend bailiffs spend all day trying to evict squatters only to have to fuck off! Sami the wanna be cop even brought his handcuffs with him in an attempt to intimidate the squatters and the head ballif - who apparently does this sort of scummy work because it "helps his anxiety" was even getting stressed when Sami wouldn't stop screaming at the squatters!

ACAB

Fuck every single cop - but particularly fuck all the filth who made being a squatter in a pandemic that much harder, from illegal evictions to raids, bullshit charges to arrests cos they just dont fucking like you. On the bright sides one of the pigs got got this year - fuck you sergeant Matiu Ratana and fuck your restorative justice prolyatising from behind your custody desk ACAB. And although that might be the only dead one - we beat up a fuck tone of them at the BLM demos and one of them rode into a traffic light and broke their collarbone!!!

FUCK LANDLORDS

Perverr landlord films squatters having sex then threatens to post online unless they leave they're building... Squatters told him to fuck off!
